BOMBERFEST

On October 20th, after much preparation, the students of SCITS witnessed the 1st annual BOMBERFEST. The full day event was promoted by the BAA/GAA as a theme for the SCITS Homecoming and is sure to start a tradition. To start off the day, our girls in Blue and White held an exciting pep rally in the auditorium to pump up our already estatic spirits. The ever popular SCITS parade followed. It was said to the biggest and best parade ever with overwhelming participation. The football game was also anything but boring. The Senior Blue Bombers showed their true colours against the undefeated St.

Pat's Irish. Students headed back to the school for the BBQ with traditional Octoberfest sausages with saurkraut, Rootbeer and polka music. The day ended with a Blue and White dance and the crowning of Mr. and Miss Bomberfest in the SCITS gym where the great multitude of people attended. All in all the 1st annual SCITS Bomberfest will be sure to hold many memories for both old and new students of SCITS.

Jenn Burtch, Miss Bomberfest

DEDICATION

This year's yearbook is dedicated to a very special person — Mrs. Judy Levesque. Mrs. Levesque was not only a teacher and coach to her students, she was a trusted friend and confidant. In 1974 Mrs. Levesque joined the teaching staff at S.C.I.T.S. after beginning her career at L.C.C.V.I. in Petrolia. As a Physical and Health Education, Math and Science teacher, Mrs. Levesque instilled in her students the meaning of responsibility, perserverance, trust and friendship. Mrs. Levesque always had a smile and a joyful greeting to brighten everyone's day. These fine qualities she herself possessed and showed in everything she did. Her zest for life never left her even in her long fight against cancer.

Mrs. Levesque showed us as a Physical Education teacher and coach the true meaning of living life to its fullest. Even after she had finished teaching she never gave up her role as a favourite fan for her curling teams. When it seemed everything was against her, her positive spirit shone through. I'll always remember Mrs. Levesque's favourite sayings; "Never forget the true spirit of competition — for defeat is only for the people who quit before the fight is truly over", and "Never forget who you are and what you can accomplish if you continue to strive for your goals."

To honour her memory and acknowledge her valuable contribution to our school, the student body has established the Judy Levesque Memorial Award.

Her zest for life and positive spirit will live on in the hearts of all of us who were fortunate to have known her.

Thank you Mrs. Levesque for being you.

Janice Robbins Shelly Frost

STARS IN ACTION

S.C.I.T.S. students are always in action in and outside the classroom. We are proud of our PAIRS Partner Polysar who have stood behind us with donations and guest speakers. Our CO-OP Program is another area where S.C.I.T.S. students shine while working in job fields of their choice. Young children in Highschool? Just another way S.C.I.T.S. offers its students hands on experience.

NEW BLUE

The New Blue is bigger and better with many renovations to the Science labs and the pool area. The hardwork done on moving day by staff and students alike, has brought about an exciting new Science Wing any future Scientist would be proud of. A face lift was also given to the Bomber swimming pool. The Bomber Swim Team could not wait to try out the new pool and show their Bomber winning spirit once again.

COMMENCEMENT

There is, I think, no better way to begin than by saying thank-you. We owe our presence here tonight not only to our own efforts but also to those of many people who have helped us throughout our high-school years. Our families provided us with support, understanding, and love. They helped us through the difficult times and shared the good times with us. The importance of their role in our lives cannot be down-played. Without them, we would not exist.

We also owe a great deal to our teachers. They too were there when we needed them and helped to guide us to one of the greatest forms of wealth that we'll ever possess — knowledge. Also, through their efforts in coordinating extra-curricular activities, we learned much about sportsmanship and team work.

Our school, over the past few years has gained a quite notewothy reputation for cleanliness and sanitation. This did not come about by chance and we should recognize all the maintenance personnel and custodians who worked behind the scenes to make our lives more pleasant.

And what about those guidance counsellors? We would never have figured out the subtleties of computer course coding without them. And the secretaries? They were the only ones who knew what was going on. And Mr. Brown? I'm sure we'll never forget Trivia Tuesdays.

Looking back and remembering is a mysterious and almost magical process. Memory defies time itself and lives on forever. It is a collage of fragments of the past. There are crisp edges and pleasantly distorted background images all intermingled and always just beyond touching distance.

Standing here today, it finally begins to sink in that highschool really is over. It might seem like just yesterday when we first came here wondering where we would fit in in such a huge place, wondering whether there was a big mean senior student lurking around some unknown corner with spray paint and rotten eggs, and wondering, for that matter, how we would ever find our classrooms.

But that was not yesterday and to say that it was negates the power of our memories and nullifies all that our high-school years have meant.

We did, after all, eventually find our way to our classrooms. Occasionally, we found ways to avoid our classrooms as well. But we did much more than this because we also found out a great deal about those seniors lurking around the corner. Gradually, as the years went by, we discovered that they were not such a bad lot after all. Eventually, we even grew quite fond of them and began to wonder why we had ever been suspicious. Now, we can almost look back at them and chuckle smugly to ourselves when we think about their shortcomings. But we must not be too smug. Those seniors were us and will be a part of who we are.

When we found our about the seniors, we also found out where we would fit in. We all became involved in one way or another – if we hadn't, we could not be here today.

Nobody tried to make us fit in too perfectly and we were encouraged to grow in as many directions as we could, never being criticized for asking questions or for being unique. This says a great deal about our school and makes it stand out above many others. In a society that seems increasingly infatuated with the laws of supply and demand, we have been given personal attention and caring.

Just as the past has formed the foundation on which we may plant our feet, so the future gives us a place to move them to.

At this point in our lives, we are faced with a great deal of uncertainty an many unanswered questions. But uncertainty inspires the greatest things the human mind is capable of. Without it, the future would be featureless and drab. We could have no dreams, no goals, no hopes, and no doubts. I much prefer uncertainty.

This school has not given us the future on a silver platter. At best, it has given us a means for dealing with the future no matter what we do or where we go. It has made us realize that we are, each and every one of us, important and it has given us friendships that will last a lifetime.

We could have asked for nothing more.

Comments: The senior boys' basketball team enjoyed a very busy season. Along with regular season play they participated in three tournaments and realized good results. A strong foundation has been formed for next year which should lead to a highly competitive team.

JUNIORS

Comments: This year's team finished in third place and entered play-off action against St. Pat's. In a close contest they were eliminated from further playoff competition. In the three tournaments entered by the team they were champions in St. Thomas, finalists in London and finished strongly in the Lambton County invitational.

Back Row: Jamie Campbell, Jim Maginn, Eric Crone, John Pevec, Todd Grant, Chuck Bullock, Jamie Baillie. Missing: Coaches Smith, Kennedy and Scott.

COACHES COMMENTS:

Although winning only one regular season game over Petrolia and an exhibition game over Chatham, our Bombers were able to sneak into the playoffs. Remembering coach Smith's immortal comments, "It only takes one game baby!" Our philosophy has become to play okay ball during the regular season, and to go nuts in the playoffs. This philosophy has not won any championships lately, but it certainly made St. Pat's take another look at themselves as we rebounded from a 38-0 loss, to a 24-20 near upset of the defending champions. We truly ended the season as champions and we can feel proud of our performance against the Irish.

Congratulations to league allstars: John Pevec, Ken Gordon, Tyson Lindsay, Mike Anderson, and Bill Adams. These guys gave outstanding performances throughout the year.

Bombers 90 looks like an exciting start to LSSAA football dominance for the Blue.

Be proud! Be a Bomber! Go Blue!

Coaches Quotes:

"There is only one corner of the universe you can be certain of improving and that is your own self." "Winners are just losers, who got up and tried again."

"Don't ask for more before saying 'thank-you' for what you have already received."

FOOTBALL

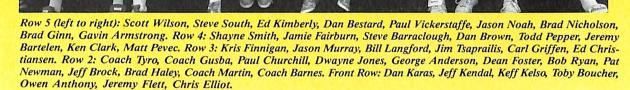

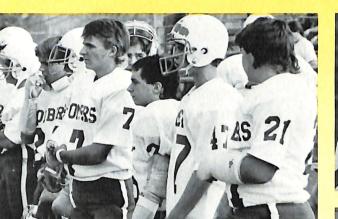

OMBERS

OMBERS

BOMBERS

1989 was to be a rebuilding year for "Junior Blue" football team at SCITS. Instead, this crop of "rookies", together with the few veterans we had returning, played a very exciting brand of football and ended league play in second place. Even with the disappointing loss to Petrolia in the semi-final game, the coaches were in agreement that this was a very successful and encouraging year for the SCITS junior football program. It was a pleasure to be involved with a group of student-athletes who displayed the motivation and dedication necessary to create the feeling of pride that we all could enjoy at the end of the season.

Comments: This year our Curling teams recruited a lot of young curlers. The team competed in league play with other Lambton high schools and in two bonspiels. Both teams closed the season on a winning note. We look forward to a good season next year.

Fiels & Tracki

The Blue Bomber Track Team had a successful season. Although smaller in number, senior athletes such as senior athletes such as
Joe Tuskan in high jump and
April Austin in hurdles, set
new records. Midget girl,
Steph MacDonald, also set a
new record in high jump.
Good luck to the Bombers in
their search for OFSAA gold.

Today!

Life is a choice, Life is a chance Given to us Through love and romance. Now that we've made it here We must go on to face our fears. We can't give up and cease to fight It's now our duty, it is our right. We have to make it through this day, No matter what may come our way. We have to be there to change our mind, Got to be strong to look and find. For tomorrow is always in our grasp, To chase after our dreams and never lapse. To realize and always understand It's in what we do; it's in our hands. We are the ones who make today. It changes through what we do and say. It's the look in a child's eyes Nothing to prove, just compromise. For we are the future, weak and strong, To know what's right and know what is wrong. For only today will change tomorrow, Will there be peace or endless sorrow? Now is the time, Now is the place. Please help us Save the human race!

Principal's Message:

"The S.C.I.T.S. Community is dedicated to the development of selfworth in its students."

I can think of no better example of this emphasis than our yearbook, the "Ad Astra". The consistent effort of the editorial staff, assisted by our teachers. produces a product bursting with pride. Pictures and words combine to demonstrate our long tradition of tolerance, ac-

ceptance, mutual support and, of course, high achievement. We are proud of all our students; and are especially proud of those very special young adults who made this book possible.
